Permit Application

TRAFFIC CONTROL PLAN

Tab to advance to each field.

STAGING AREA

Parade participants will assemble at: ____________________________

(Location)

The start of the parade will enter at: ____________________________

(Location)

and continue on the parade route as noted on the attached map.

TRAFFIC CONTROL DEVICES

Intersection streets along the parade route (name of streets parade will travel) will be restricted by “A” frame white and orange stripped plastic barricades.

The end of the parade will exit at: ____________________________

(Location)

which will be barricaded with white and orange stripped “sawhorse style” barricades.

Barricades will be in place no later than 15 minutes prior to the start of the parade and will be removed no later than 15 minutes after the parade concludes.

Responsibility for placement and removal of all barricades shall be the responsibility of the permit applicant and/or their designee:

__________________________________________________________

(Name & Organization)

Permit applicant, __________________________________________

will coordinate with ADOT and Pima County Department of Transportation for delivery of barricades along the parade route.

TRAFFIC CONTROL OFFICIAL LOCATION

Traffic control will be performed by members of the Pima County Sheriff’s Department – Ajo District and the Pima County Sheriff’s Department Auxiliary Volunteers (SAV). If determined by the on-site Sheriff’s Department senior personnel, additional traffic control assistance will be requested from members of the U.S. Border Patrol – Ajo Station, and will perform traffic control under the direction of the Pima County Sheriff’s Department.
Members of the Pima County Sheriff’s Department SAV will be located at the start point of the parade and will allow the parade to enter the roadway at:

Start Location: ____________________________

TRAFFIC CONTROL PLAN

CONTINUED

A marked Pima County Sheriff’s Department SAV vehicle, utilizing emergency equipment, will escort the parade by proceeding a block ahead of the lead parade entrant to ensure the cross streets are blocked.

A marked Pima County Sheriff’s Department SAV vehicle, utilizing emergency equipment, will follow the last parade entrant to prevent non-parade traffic from overtaking the parade.

For events that utilize Arizona State Route 85, the following applies:

A member of the Pima County Sheriff’s Department SAV will be located at the ADOT traffic control light at the intersection of Arizona State Route 85 and La Mina Avenue. At the start of the parade, Sheriff’s Department personnel will hold and divert traffic from the parade route. Once the parade exits the route, traffic will be allowed to continue on Arizona State Route 85.

RESPONSIBILITY FOR TRAFFIC CONTROL COMPLIANCE

The parade coordinator shall be responsible for compliance with the traffic control plan:

(Name & Organization)

Coordination of traffic control at the event will be accomplished by the following:

Lt. Robert Koumal Or, designee: Name: ____________________________
Commander, Ajo District Title / Position: ____________________________
