Value: 0 Characteristics:
I

SUPPLEMENTAL NARRATIVE:

Initial Case Narrative by R. Roher #5347 on 01/27/17 at 1859 hrs.

Total Dictation Time = 11:53 mins.

On 01/27/17 I was participating in Operation Stonegarden. I stopped out at the Border Patrol checkpoint located near Milepost #147 on Arizona 86. I conducted a traffic stop and at approximately 1606 hours stopped a vehicle. When I stopped that vehicle, I noted that it had illegal tint. I made contact with the driver and issued a citation to her. As I was doing this, I noted Border Patrol agents had already pulled another vehicle into a secondary area. That vehicle had an Arizona license of [REDACTED]. After concluding my stop, I started to make contact with Border Patrol agents to see if they needed assistance. It was approximately 1615 hours when I first made contact with agents.

They advised me that the occupants in the vehicle possibly had drugs. Border Patrol Agent Haley *T293 was a canine unit with Border Patrol and his dog had alerted to the vehicle. Apparently, one of the occupants of the vehicle, who was later identified as [REDACTED] and was wearing a green shirt, indicated he had smoked marijuana. Agent Haley indicated that the dog would still alert to the vehicle even if an occupant had smoked marijuana. So, in other words, the dog may have alerted to the fact that [REDACTED] had used marijuana recently. The other passenger in the vehicle was identified as [REDACTED]. He was identified verbally and provided his information. [REDACTED] had his Arizona identification card. The final occupant, with whom I later had contact, was the driver of the vehicle and her name was [REDACTED] and she was also identified with her Arizona driver's license.

During the process of standing by there, I was advised that several plastic baggies had been located in [REDACTED] possession. The baggies were consistent with being used for illegal drugs, although all the baggies that I observed were clear and unused. Given my training and experience, however, this was what these baggies were used for generally. I did have contact with [REDACTED]. She was apparently the individual who had these in her possession. She stated she had forgotten she had them in there. She did indicate that she was not a drug dealer, nor was she doing any type of drug transactions.

I learned from Border Patrol agents that they had run a check on [REDACTED] as well as [REDACTED] and determined there were warrants for their arrest. I also went to my patrol car, running a warrants check on the subjects, and determined that in fact both [REDACTED] as well as [REDACTED] did have warrants for their arrest.

After the warrants were confirmed, the subjects were placed in handcuffs. [REDACTED]

██████ was very cooperative up until the point he was advised he had a warrant for his arrest. ██████ had two warrants, one of which was out of Pinal County and that was Warrant CR201102302. The second warrant was reference our warrant, which was CR07720437. It was determined that ██████ had a warrant for his arrest, Warrant CR13316037, and that warrant was subsequently served.

Again, after processing the individuals and advising them of the confirmed warrants, they were placed in handcuffs. I personally placed ██████ in handcuffs double locking them to the rear. ██████ had been pretty cooperative with me and he advised that he was aware of the warrant. He also stated he had been going to attempt to go to warrant court, which Justice Court had been doing; however, he was not able to make it into town as he had no transportation.

██████ after being placed in handcuffs, was searched. He was searched due to the fact he was going to be placed in a patrol car and he did have a warrant for his arrest and that warrant was confirmed. He was therefore under arrest and his person was searched incident to arrest.

In the process of searching ██████ from his right pants pocket I withdrew a tablet. That tablet was orange in color and had a 'T' on one side and nothing on the other side. I asked ██████ what it was and he indicated to me that it was Tylenol. He stated, without being questioned, that it was given to him by a friend for his face. He did not elaborate further on why he needed it for his face. But, nonetheless, he stated it was Tylenol.

I maintained custody of the tablet and walked ██████ initially toward Sergeant J. L. Rockwell's #1357 patrol vehicle. My particular patrol vehicle did not have a cage in it and therefore it was determined that I could not take both individuals. Deputy O. Fruge #6868 ultimately responded and was able to take custody of ██████ as well as ██████ and transported them to the Pima County Adult Detention Center where they were booked.

It was determined that the subjects would only be booked for their warrants; however, with the Border Patrol agents, I did elect to Narco Pouch the tablet using their Narco Pouch test and it did appear to test positive for ecstasy. Based on my training and experience, the tablet did more than likely appear to have some type of unique stamping to it and it did not appear to me to be a medicinal type of tablet based on my training and experience. However, I elected to not charge ██████ at this time; however, I did believe there was probable cause to arrest him for the possession of the dangerous drug in that the tablet did appear to be ecstasy based on the Narco Pouch testing. I packaged it and labeled it as RR1. I transported it to the Robles Junction substation where it

was placed into an evidence locker. The tablet would later be sent to the Arizona Department of Public Safety for the purposes of testing and to verify that it was in fact ecstasy and verify that it was an illegal substance. Once that were accomplished, an issuing appointment would be set with the Pima County Attorney's Office.

The vehicle they were riding in was allowed to depart along with [REDACTED]. [REDACTED] was also initially cooperative and polite; however, once he learned he had a warrant, his demeanor changed extensively and he became extremely upset. He had admitted to smoking marijuana to me; however, his behaviors were somewhat odd and it almost appeared that perhaps he had used something else besides just marijuana based on my training and experience.

Border Patrol agents were provided with the case number reference their contact.

This concludes my involvement.

SUPPLEMENTAL NARRATIVE:

Supplement Dictated by R. Roher #5347 on 01/31/17 at 1345 hrs.
Total Dictation Time = 0:35 mins.

On 01/31/17, while in the Administration Building I completed a DPS request for scientific examination. I submitted that so that the substance could be appropriately tested.
